Please note:
• This is mostly a listing and brief description of 220+ resources—not an endorsement unless so specified.
• The length of descriptive narrative provided for each resource is not necessarily related to the total services provided by the resource or to how effective the resource is.
• I am responsible for what excerpts included below (in quotation marks) have been selected from various Web sites.
• Of course, resource info can be outdated almost as soon as it is posted. I welcome additions or update suggestions for this listing and will periodically re-post updated revisions on my university web-site.
• By the way, in compiling this listing, as a Vietnam vet I have been just amazed at how many wonderful and active community folks are out there who not only really care but also are doing something as well on behalf of our servicemembers, vets and their families!! ☺

The first and most vital resource: you and your family. However, you or a member of your family may be in denial that there are post-deployment or continuing problems or is not willing to share or accept help. You’ve got to be able to talk it out, and often—with a trusted family member, close friend, fellow or sister veteran and/or write about it or somehow express what’s going on inside you. Or it will come back on you later.

The best way to locate a good counseling resource to help you/your family deal with deployment and post-deployment issues: get a recommendation from someone you trust—such as from a fellow or sister servicemember/vet, a military family member or a Veterans Service Organization such as The American Legion, AMVETS, Disabled Veterans of America, Iraq/Afghanistan Veterans of America, Iraq & Afghanistan Veterans Association, Iraq War Veterans Organization, National Veterans Foundation, Paralyzed Veterans of America, Veterans of Foreign Wars, Vietnam Veterans of America et al. [See official listing of veterans service organizations officially registered at www.va.gov/vso].

It should be noted that a number of active duty personnel have difficulty feeling comfortable going to a military resource for mental health concerns because of worry about stigma, the impact on their careers such as reduced security clearance, trust issues with the military system, etc. Similar trust issues characterize a number of veterans and their families in dealing with the Veterans Administration (VA). Hence, military, veteran’s affairs, other public and private non-profit resources all are included in this listing in that all are important elements of a comprehensive array of resources.

Resources to consider include:

Along with VA Substance Dependence Rehabilitation Programs, various other VA residential, homeless and health/mental health programs and clinics.

VA medical facilities each typically will have a combination of several of the following specialized PTSD programs:

**Outpatient PTSD Programs (SOPPs):**

- **PTSD Clinical Teams (PCTs):** Provide group and one-to-one evaluation, education, counseling, and psychotherapy.
- **Substance Use PTSD Teams (SUPTs):** Offer outpatient education, evaluation, and counseling for the combined problems of PTSD and substance abuse.

- **State Departments of Veterans Affairs:** state DVA’s provide information and referrals & some provide direct counseling services such as Washington State which has had a significant network of counseling contractors throughout the state for many years. Currently New Jersey, Illinois, and Washington
State DVA’s have outpatient programs. Wisconsin and Texas also have special arrangements with the VA that help to provide services to remotely located veterans.
